

## Electronics Technology - Conference – Exhibition- Networking Event 30th September/1st October 2009, Ricoh Arena, Coventry

**Reduce Waste – Improve Reliability – Increase Profit!**

BECOME A SPEAKER at the SMART 2009 Conference  
DEADLINE for submitting papers is: 27th March 2009

The First European event focussed on electronics, economy, design, manufacture and reliability. If you are interested in becoming a speaker at our conference and presenting your practical experience and technical results related to one of the following topics - you should provide us with a short summary of your paper in English.

The topics to be covered are:

- Industry trends and economic survival for electronics
- Future of manufacture in Europe
- Current and future legislation
- Advanced printed board design and fabrication techniques
- Means and methods to reduce costs and improve profit
- Component developments and future packaging
- Soldering developments and joint reliability
- Yield improvements and cost reduction

The conference will feature a number of innovative papers and workshops based on individual experiences covering every aspect of electronics. In addition, there will be one pre-eminent paper projecting industry trends and focusing on the economic future of the market; and embracing academic and industrial connotations. There will be a special award to the best paper within the main body of the conference, and these will be judged by a representative panel from within the electronics industry.

As a speaker you will profit by national and international publicity for your presentation, your name and company is published in the conference programme, the internet and the conference proceedings. Speakers have free admission to all sessions of the conference, the exhibition and networking with other experts from around the world.

We are looking forward to receiving your proposal.
